# Introduction

For the Updates of the OnePlan application, after careful discussion, we have agreed on the key features to be added and necessary updates for the project's second iteration. Our team would like to present the work that was done and the work to do.

# Requirements

We can divide the requirements for the 3 groups of features:

- Events
- Invitations
- Friends

# Events

- Show invited users
- Show attendees

## Extra updates:

We have added features such as:

- Email verification ( user has to verify email before logging in )
- Password recovery ( user can recover forgotten password )

# To be Done

There is always some room for improvement and we look forward to working on the new features and fixes that the client would like to see

# Conclusion

The features were implemented in a timely manner with the best practices. We will need a couple more days (with your agreement) to finalize the project iteration and fix the limitations. We would like to continue the work on the project to discover new horizons.
